EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF SCIENCE AND TECHNOLOGY POLICY  
WASHINGTON, D.C. 20506

May 6, 1985

Dear Dr. Huffaker:

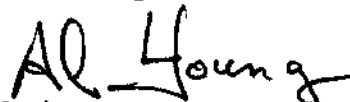

Thank you for the document package of April 30, 1985. I was pleased with your decision to resume normal HVAC operations at the Binghamton State Office Building. I continue to admire you and your staff for your prudent but determined efforts to clean and open the BSOB. Clearly your actions have been responsible and I believe the data from the third test will confirm the need for such actions.

Please keep me advised of the sample results and of the data for the Expert Panel Meeting. Please note my address change for future correspondence.

Alvin L. Young, Ph.D.  
Senior Policy Analyst for Life Sciences  
New Executive Office Building  
Room 5005  
Washington, D.C. 20506  
(202) 395-3125

I am enclosing a copy of our latest efforts to develop national guidelines for chemical carcinogenesis. Please feel free to reproduce and send to the other Panel members as the sections on Exposre, Epidemiology and Risk Assessment will be of interest to them.

Sincerely,

Alvin L. Young, Ph.D.  
Senior Policy Analyst for  
Life Sciences

Dr. Robert H. Huffaker, DVM, MPH  
Director
