SUBJECT:

Herbicide Orange Study

TO: All AMD Commanders and Staff Agencies

The publicity on Herbicide Orange/"Ranch Hand" Study has left many questions unanswered in the minds of people who may feel they should take some action. Because of this, we have already received several telephone calls in various offices on the base. To ensure correct information is given, I want all these calls referred to the Information Office at 536-3235.

7 June 1979

TO: All USAF OEHL Division Chiefs

Please give the above letter wide dissemination to assure that all personnel are aware of General McIver's wishes. Effective immediately, all calls pertaining to the Epi Division study or other human health questions regarding Herbicide Orange will be referred to the Information Office.

GALE D. TAYLOR, Colonel, USAF, VC
Vice Commander
