* A -- DIRECTIONAL FREQUENCY ANALYSIS AND RECORDING (DFAR) SONOBODY MODIFICATION. --NAVAIRSYSCOMHQ is conducting a procurement for the design, development, fabrication and test of a high density field (HDF) DFAR sonobody. A confidential request for info will be mailed mid-August 1982 to qualified AN/SSQ-538 sonobody producers to support the first quarter FY-83 issuance of an RFP/RQ. The goal of this effort is to develop an AN/SSQ-538 sonobody derivative with high frequency broadband acoustic detection capabilities. The agency of the requirement makes it impracticable to consider firms other than those possessing current AN/SSQ-538 production facilities. This restriction does not preclude any independent assessments and/or ideas that other sources deem pertinent to this development.
