SUMMARY

The papers of the late Charles E. North, pioneer in the dairy industry, leader in gaining public acceptance of milk pasteurization laws and author of many articles and reports related to the development of the dairy industry were presented to the National Agricultural Library on November 21, 1969 by Miss Jean P. North.

The scope of this collection (approximately 20,000 items), encompasses North's correspondence as it pertains to a variety of subjects related both directly and indirectly to the development of the dairy industry during the first half of the twentieth century. Of particular significance to the researcher in public health and consumer protection are the records concerning his efforts toward gaining passage of Milk Legislation. Also included in this collection are his many patents on processes and devices related to the milk industry and copies of many of his published articles in this area. Finally, there are many photographs and several movies which pictorially reflect his efforts and determination towards upgrading the sanitary standards for processing milk.

Literary rights in the papers of Charles E. North are in the custody of the National Agricultural Library and are open to qualified researchers and scholars.

CHARLES E. NORTH (1869-1961)

Dr. North served as bacteriologist and consultant on clean milk and pollution to state and local governments; he was a pioneer in the dairy industry. His efforts towards the acceptance of milk pasteurization in the area of public health are well-known. He invented numerous processes and machines for dehydration and re-constitution of milk products and wrote numerous reports and papers on bacteriology, public health, and sanitation.

North brought such things as covered milk pails and dairy cattle inspection to the point of commonplace in U.S. dairy history. A medical doctor much concerned with public health, he was responsible for many aids making the sale of milk and milk products safe for the consumer. Consumer protection was the concentrated goal of North for the 50 years he devoted to the industry. Many patents still in force are in his name, and notebooks and charts for these form part of his collection of papers. In addition the papers contain copies of the above-mentioned patents on processes and devices, notes of research, and letters dealing with a variety of subjects spanning the first half of the twentieth century.

North, Charles Edward, 1869-1961.

Papers, 1912-61. ca. 159 ft.

In National Agricultural Library (Beltsville, Md.)

Physician, public health officer, and agricultural scientist.

Correspondence, research notes, patents on processes and devices, notebooks, graphs for lectures, photos, and lantern slides, relating chiefly to North's work in developing aids in making the sale of milk and milk products safe for the consumer.

Research access restricted.

Information on literary rights available in the library.

Gift of Miss Jean North.

MS 70-1368

Biographical Note

CHARLES E. NORTH

sanitarian, author, inventor

born: Scarborough, N.Y. 1869

A.B. Wesleyan University 1893

MD. College of Physicians and Surgeons (Columbia) 1900

post-graduate work in bacteriology, Columbia, 1905

post-graduate work in public health, Harvard, 1909-10

Manager, Purity Milk Company, 1900-04

Bacteriologist, Lederle Laboratories, 1905-08

Appointed in 1908, by Department of Health, New York City, director of research on value of bacterial vaccines and Opsonic Index.

Consulting bacteriologist, Jersey City Water Dept., 1908-10

Established clean milk supply for infant milk stations of New York Milk Committee, 1908-10

Consulting expert on part of New York State in litigation with State of New Jersey on pollution of New York Harbor by Passaic Valley Sewer, 1913

Appointed chairman, Mayor Mitchell's Committee on Milk, 1917

Drew plans for municipal milk plant, Jamestown, New York, 1918

Surveyed milk supply, City of Rochester, New York, 1919

Expert for Montclair, N. J. in water supply litigation, 1919

Survey of milk supply of Kansas City, 1921

Executive Secretary, National Committee on Milk Standards

Secretary, Grade A Milk Association, 1938

Chairman, Committee on Longevity, Class of 1900, College of Physicians and Surgeons (Columbia) New York, 1940

Recipient citation, Philadelphia Dairy Technical Society, 1955

Died 1961

Biographical Note

(From mass of material in files)

- Education: Wesleyan University; Columbia University; Harvard;
Bacteriology, chemistry, medicine
- 1900-1904 Purity Milk Company, Trenton, N. J. (Certified
Milk Farms).
- 1905-1908 Lederle Laboratories; established Department of
Bacteriology; bacterial testing for 55 milk
dealers.
- 1906 Holding method of pasteurization; Sheffield Farms
Company.
- 1907-1920 New York Milk Committee; baby health stations;
milk supply.
- 1908-1954 Own office and laboratories; consulting services.
- 1908 Agent for Metchnikoff, Director of Pasteur Institute;
made cultures of *Bacillus Bulgaricus*.
- 1908-1911 Bacteriologist, Water Department, Jersey City, N. J.;
chlorine sterilization of water: Jersey City,
New Brunswick, New York City, Toronto and other
cities.
- 1909 Homer milk station; N. Y. Dairy Demonstration Company.
- 1910 National Commission on Milk Standards, Grade A Milk;
(Secretary, 1910-1920).
- 1910-1913 Expert for International Milk Dealers Association.
- 1912 Grade A milk for Baltimore and Buffalo.
- 1912 Clarifier; DeLaval machines tested.
- 1913 Homogenizer lawsuit.
- 1914 Wrote new milk ordinance, New York City.
- 1914 Abbotts Dairies, Oxford, Pa.

Biographical Note - cont'd. (sheet 1)

- 1915 Borden Company; 7 Grade A milk stations.
- 1915 Sheffield Farms Company; 3 Grade A milk stations.
- 1916-1917 Fifteen dealers: New York, New Jersey, Boston, Providence, Hartford, Springfield, St. Louis; Grade A milk.
- 1918 Mechanical cows reconstituted milk for Merrell-Soule Co.
- 1918 Survey; cost N. Y. City milk supply, for Department of Health.
- 1919 Survey; cost Rochester milk supply, for City.
- 1920 Wrote milk ordinance, Kansas City.
- 1920 Endicott tests with 35 experts on commercial pasteurizing machines; published by U. S. Public Health Service.
- 1918-1931 Pilot plants, testing methods for dehydration of milk fat and milk solids.
- 1910-1920 Visited many cities, United States and Canada, to establish pasteurization.
- 1920 First production of plastic cream, Fort Covington, N. Y.
- 1924 Bacterial tests on Tubercle Bacilli (with Dr. William H. Park) to fix standards for pasteurization.
- 1925 Invented precision heaters for pasteurizing machines, for Creamery Package Mfg. Company.
- 1918-1931 Thirty-six (36) patents on processes and machines for dehydration and reconstitution of milk from fat and solids.
- 1927 Introduced stainless steel for dairy machinery after six months' tests with other metals for corrosion.
- 1927 Nine (9) patents on chocolate stabilizers; sold to Krimko Company.

Biographical Note - cont(d. (sheet 2)

- 1928-1930 Worked with Wisconsin Alumni Research Foundation on Vitamin D production with ultra-violet ray, and designed machine.
- 1920-1932 Directed five expositions in Grand Central Palace and armories, on milk and public health; in one of these, display of Dr. McCollum's animals with vitamin tests.
- 1910-1920 Investigated thirteen epidemics, including typhoid fever, septic sore throat, due to infected water and milk.
- 1927-1954 Invented many machines, manufactured for dairy industry, 75 patents (Creamery Package Mfg. Co.; DeLaval Separator Company).
- 1940-1954 Operated pilot plants for milk oil and dry skim milk.

QUALIFICATIONS AS EXPERT IN DAIRY SCIENCE

1. Degree of A. B., Wesleyan University, Middletown, Conn., 1893.
2. Degree of M. D., Columbia University, New York, 1900.
3. Post-Graduate in Bacteriology, Harvard University Medical School, 1909-10.
4. Organized and operated Purity Milk Co., Trenton, N. J., 1900-1904.
5. Director of Bacteriology, Lederle Laboratories, New York, serving 55 milk companies, 1905-1908.
6. Member, New York Milk Committee, milk for infants, New York, 1907-1920.
7. Secretary, National Commission on Milk Standards, 1910-1920.
8. Organized New York Dairy Demonstration Co. (milk for infants), 1909-1912.
9. Invented new "holding method", pasteurization, 1906.

QUALIFICATIONS AS EXPERT IN DAIRY SCIENCE - cont'd. (sheet 1)

10. Consulting expert, International Milk Dealers' Association, 1910-11-12.
11. Introduced Grade A milk and system of control, 1911.
12. Established Grade A milk for Baltimore, 1913.
13. Wrote new milk ordinance, New York City, 1914.
14. Established Grade A milk, Abbotts Dairies, Philadelphia, 1914.
15. Established Grade A milk for Boston, 1915.
16. Established Grade A milk for Borden Company, New York, 1915.
17. Established Grade A milk for Sheffield Farms Co., 1916.
18. Operated "mechanical cow" for Merrell-Soule Co. of Syracuse, N. Y., making reconstituted milk, 1917.
19. Organized Milk Oil Corporation, 1918, to make milk oil and reconstituted milk and cream.
20. Took out 36 patents between 1918-1928 on milk oil and reconstituted milk.
21. Retained by Mayor John Purroy Mitchell of New York City for survey of City milk supply, 1917-18.
22. Retained by Mayor of Rochester, N.Y., 5 months' survey of City milk supply, 1919.
23. Retained by Mayor of Jamestown, N. Y., survey of City milk, 1919.
24. Installed milk oil machinery in plant of Horton Ice Cream Co., Sussex, N. J., 1919 (3 months).
25. Retained by Mayor of Kansas City, Mo. (3 months) survey, City milk supply, 1920.
26. Installed milk oil machinery in plant of Borden Company, Wassaic, N. Y. (6 months), 1920.
27. Directed investigation of commercial pasteurization, Endicott, N. Y., by 35 experts, 1920-1922. Report published by U. S. Public Health Service.

QUALIFICATIONS AS EXPERT IN DAIRY SCIENCE - cont'd. (sheet 2)

28. Installed milk oil machinery in plant of General Ice Cream Co., Ft. Covington, N. Y., 1922-24.
29. Installed milk oil machinery in plant of Kraft Cheese Co., Antigo, Wis. (6 months), 1925.
30. Retained as consultant by many large milk companies including Borden Co.; Sheffield Farms; H. P. Hood & Sons, Boston; D. Whiting & Sons, Boston; Western Maryland Co., Baltimore; Abbotts Dairies, Philadelphia; Pevely Dairy Co., St. Louis; Chapman Dairies, Kansas City; and many others.
31. Consulting practice includes much work connected with water purification:
 - (a) Bacteriologist, Jersey City Water Supply Co., 1908-1912.
 - (b) Raised capital to finance first company for sterilization of water with chlorine;
 - (c) Retained by many water companies and cities for water purification.
32. Epidemics: retained to investigate causes of many large out-breaks of epidemic diseases in cities and institutions.
33. Laboratories: for 45 years operated chemical and bacteriological laboratories and trained many laboratory workers.
34. Patents: 36 patents were taken out between 1918 and 1928 on processes for producing milk oil and reconstituted milk. New applications are now being made on these same subjects and on the quality of dry skim milk produced by new process.

Process of treating milk oil

U. S. Serial No. 693,335 (filed Feb. 16, 1924)
U. S. Patent No. 1,525,251 (dated Feb. 3, 1925)

Process of emulsifying milk fat

U. S. Serial No. 693,772 (filed Feb. 19, 1924)
U. S. Patent No. 1,584,124 (dated May 11, 1926)

Process of obtaining oil and casein from cream

Drawer 3-10

U. S. Serial No. 694,015 (filed Feb. 20, 1924)
U. S. Patent No. 1,678,476 (dated July 24, 1924)

Producing agglomerated cream

Whitner, Thomas C.

U. S. Serial No. 698,405
U. S. Patent No. 2,485,308

treatment of butter fat (Rancid)

Seifert and Seifert.

U. S. Serial No. 699,520
U. S. Patent No. 2,564,715

Process and apparatus for continuously making butter
from fluid cream.

Whitner, Thomas C.

U. S. Serial No. 702,113
U. S. Patent No. 2,550,288

Clarifying butter fat

U. S. Serial No. 702,568 (filed March 28, 1924)
U. S. Patent No. 1,509,086 (dated Sept. 16, 1924)

Process of making butter from milk oil

U. S. Serial No. 702,569 (filed March 28, 1924)
U. S. Patent No. 1,509,087 (dated Sept. 16, 1924)

Process of making butter from milk oil

Drawer 3-11

U. S. Serial No. 704,351 (filed April 5, 1924)
U. S. Patent No. 1,584,125 (dated May 11, 1926)

Producing milk oil from sour cream

U. S. Serial No. 705,931 (filed April 11, 1924)
U. S. Patent No. 1,509,088 (dated Sept. 16, 1924)

Making butter from milk oil

U. S. Serial No. 708,570 (filed April 23, 1924)
U. S. Patent No. 1,530,511 (dated March 24, 1925)

Process of making oleomargarine

U. S. Serial No. 716,597 (filed May 29, 1924)
U. S. Patent No. 1,534,539 (dated April 21, 1925)

Process of emulsifying milk oil

U. S. Serial No. 753,806 (filed Dec. 4, 1924)
U. S. Patent No. 1,678,477 (dated July 24, 1928)

Process for whipping or agitating cream

Seifert and Seifert.

U. S. Serial No. 782,811
U. S. Patent No. 2,521,398

Continuous butter working apparatus

Drawer 4-1

Patents Disapproved.

Seifert and Seifert.

U. S. Serial No. 461,368 (filed Oct. 9, 1942)
(abandoned)

Apparatus for and method of extracting butter fat from
milk or cream.

Seifert and Seifert.

U. S. Serial No. 461,368

Argentina 59,543

Canada

Great Britain

Sweden

Seifert and Seifert.

U. S. Serial No. 484,351 (filed April 24, 1943)
(abandoned)

Method of and apparatus for making reconstituted milk and
cream and other milk products.

Seifert and Seifert.

U. S. Serial No. 484,351 (filed April 24, 1943)
(abandoned)

Seifert and Seifert.

U. S. Serial No. 484,351 (filed April 24, 1943)
(abandoned)

Drawer 4-2

Seifert and Seifert.

U. S. Serial No. 487,903 (filed May 21, 1943)
(abandoned)

Process to remove hydrophilic colloidal material, etc.
for producing milk fat or butter fat oil.

U. S. Serial No. 598,510 (filed Nov. 2, 1922)
(case dropped)

Method of reproducing milk and cream

U. S. Serial No. 604,752 (filed Dec. 4, 1922)
(case dropped)

Process of producing milk oil

U. S. Serial No. 599,575 (filed Nov. 7, 1922)
(case dropped)

U. S. Serial No. 613,767 (filed Jan. 19, 1923)
(case dropped)

Process of extracting milk fat

U. S. Serial No. 621,666 (filed Feb. 27, 1923)
(case dropped)

Agglomerated cream

Drawer 4-3

U. S. Serial No. 639,217 (filed May 15, 1923)

(case dropped)

Process of obtaining milk fat

U. S. Serial No. 655,522 (filed Aug. 3, 1923)

(case dropped)

Obtaining milk fat from butter

Whitmer, Thomas C.

U. S. Serial No. 674,980 (filed June 7, 1946)

Milk Powder

Seifert and Seifert.

U. S. Serial No. 687,907 (filed Aug. 2, 1946)
(abandoned)

Continuous process and apparatus for emulsifying milk
fat oil and making reconstituted cream

U. S. Serial No. 693,771 (filed Feb. 19, 1924)

(case dropped)

Manufacture of butter

Milk industry in Fall River, Mass.

Davis-Watkins Dairymen's Mfg. Co.

Correspondence (1917-1923)

Drawer 8-1

Dellwood Dairy Co.

Correspondence (1938-1947)

CEN- Grade A Milk Assn. and the threat of Grade A Milk being taken off the market.

Des Moines, Iowa

Correspondence (1936)

Pasteurization.

Detroit Creamery Company

Correspondence (1919-1932)

CEN advocates adoption of Grade A Milk business.

Detroit, Michigan. Dept. of Health.

Correspondence (1921-1936)

CEN proposed for health, safety, and welfare exposition.
CEN advocates Grade A Milk standards for Detroit.

Detroit Milk Commission.

Correspondence (1917-1919)

Includes reports; origin; minutes.

Devonshire Dairies.

Correspondence (1935)

Detection of Mastitis; vitamin content of milk; Edward J. Pine.

Drawer 8-2

District of Columbia, Health Dept.

Correspondence (1936-1952)

Sterilization of dairy utensils by steam. Regulations affecting sale of Grade A Milk.

Douthitt Engineering Co.

Correspondence (1925-1932)

Sterilizing equipment.

Drain, H.D.

Correspondence (1922-1926)

Improvement of milk supply in Ohio; contract between Drain and CEN including Budd Dairy Co. to carry on research.

Drew, Charles M.

Correspondence (1939-1944)

Organization of company to exploit products resulting from dehydration of milk.

Duane, Morris and Heckscher.

Correspondence (1926-1927)

Pennsylvania Milk Ordinance.

E Miscellaneous correspondence

Eastman Kodak Co. Pictures of World's Fair. (1940)

Edge, Nelson J. Homogenizing machines.

Ekroth Laboratories Inc. Grade A Milk and attempt to keep it on the market.

Drawer 8-3

E Electric Farm Equipment Co. Sterilizing equipment.
Emerson Drug Co. Dehydration of milk products including
butter oil.
Erie, Pennsylvania. Health Officer. Milk laws.
Erie County Milk Assn. Pasteurization practices.
Evarts, Josephine, (Dr.). Agglutination tests for Brucella
infection.
Ewell Farm. Milk oil.

East Greenwich Dairy Co.

Correspondence (1929-1932)

Rhode Island Milk Assn.

Eastern Dairy Equipment Co.

Correspondence (1941-1942)

Equipment for the manufacture of reconstituted milk.

Eastern States Dairy Assn.

Miscellaneous Data. (1919)

Rosters of membership.

Eimer and Amend.

Correspondence (1923-1937)

Laboratory apparatus.

Elderkin, J. K.

Correspondence (1941-1945)

Use of ozone process; case involving Chemical Production Co.

Drawer 8-4

Elderkin, J. K.

Miscellaneous data (1937-1943)

Includes agreement between CEN, Elderkin, Berger, and Good-enough Chemical Products Co. of New Jersey.

Elderkin, J. K.

Correspondence (1939-1941)

Use of ozone process process.

Emerson, Haven (Dr.).

Correspondence (1951-1954)

~~Bakteriologische~~ friends.

Emerson, Haven (Dr.).

Correspondence (1944-1951)

Emerson, Haven (Dr.).

Correspondence (1941-1943)

Milk, Puerto Rico.

Emerson, Haven (Dr.).

Correspondence (1914-1917)

Bacterial standards.

Emlen, and Co.

Correspondence (1930)

Drawer 8-5

Englebert International Inc.

Correspondence (1942-1944)

Includes reports: CEN process for reconstituted milk proposed for Latin America.

Evans, W.A. (Dr.).

Correspondence (1935-1938)

Evans, W.A. (Dr.).

Correspondence (1913-1929)

Milk standards.

Evansville, Indiana.

Correspondence (1923)

Evansville Pure Milk Co.

Correspondence (1923-1928)

Pasteurization.

Everett, Roberts.

Correspondence (1961)

Dairy Industries Supply Assn., Inc.

Ewing, Oscar and Sons, Inc.

Correspondence (1936)

Drawer 8-6

Ewings, D.H. Sons, Inc.

Correspondence (1914-1922)

Exposition of Women's Arts and Industries (12th Annual).

Correspondence (1933)

Includes miscellaneous data and reports.

F Miscellaneous correspondence

Fairfield Western Maryland Dairy. Baltimore. Origin of pasteurization in the city.

Farm Service Force (YWCA). Recommendation for Catharine Faragher for position of camp director.

Farmer's Dairy Co., Ltd. (R.D. Hughes). Surveys of cost of milk handling and delivery.

Gwinn, Ralph W. CEN. Dehydrated products.

Drawer 8-9

Gardiner, ASA B.

Correspondence (1914-1935)

Dairy engineering concern; business proposition involving
CEN's services as consultant.

General Ice Cream Co.

Correspondence (1930-1944)

Includes report by CEN; "Tabulation of Results-Creamery
Package Precision Heater-Flash Type" Aug.-Sept. 1930.

Glass Container Assn.

Correspondence and Membership list. (1923-1937)

Golden State Co., Ltd.

Correspondence (1923-1948)

CEN letters discussing Copeland Bill.

Goldzieher, Max A.

Correspondence (1941-1950)

CEN asked to extend work of class of 1900 longevity committee.

Greater New York and New Jersey Milk Institute.

Correspondence (1935)

CEN discusses attempt to abolish Grade A Milk standards.

Drawer 8-10

Greene, Howard T.

Correspondence (1933-1935)

Brook Hill Farm, Inc. CEN letters refer to recent correspondence with President Franklin Roosevelt about milk standards.

Gregg Case

(1914)

U.S. Vs. Gregg. Milk purification.

Greiner, Emil Co.

Correspondence (1924-1938)

Includes reports.

Gridley Dairy Co.

correspondence (1914-1936)

History of Pasteurization in Milwaukee.

Griffin, J.W.

Correspondence and miscellaneous data (1913-1946)

CEN; Pollution and the control of water supply.

Grim, George W.

Correspondence (1936-1946)

Milk Control District No.1, Ardmore, Pa. CEN as consulting sanitarian for Abbotts Dairy.

Drawer 8-1D

Gruselle, Johnny.

Correspondence (1937)

Radio talks on milk by CEN. Dec. 6, 1934 to July 5, 1935.

Guaranteed Pure Milk Co., Ltd. Montreal, Que.

Correspondence (1930-1940)

Milk industry in Montreal, Canada.

H Miscellaneous correspondence

Haas, Sidney V. (Dr.). Milk in infants' diet.

Halsey, Robert H. (Dr.). Progress of CEN's health.

Correspondence (1945-1951)

Roche-Organon, Inc.

Hoffman, Wilhelm.

Correspondence (1928-1937)

Irradiated milk.

Hofman, Emil (Dr.).

Correspondence (1927-1938)

Drawer 9-1

Holt Manufacturing Company

Correspondence (1923)

CEN plans for Milk Survey in Peoria, Illinois with the view of recommending a new Milk Ordinance.

Homewood Dairy Products Co., Inc.

Correspondence (1933)

CEN, issue of Grade A Milk in Birmingham, Alabama.

Hood, Gilbert H.

Correspondence (1959)

CEN discusses plans for book dealing with the progress made in the Milk industry.

Horton, Dan S.

Correspondence (1931-1936)

Summary of Holding Method of Pasteurization.

Hoyton, J. M., Ice Cream Company

Correspondence (1918-1920)

Use of Grade A Milk in making ice cream.

Hoyt, J. Mitchell

Correspondence (1927)

Fruit juice preservation.

Drawer 9-2

Hudson and Manhattan Railroad Company

Correspondence (1912)

Purification of water.

Hurley, P.

Chemical Tests (1922)

Data

Hurty, J. N.

Correspondence (1922-1923)

Milk laws in Indiana.

I Miscellaneous correspondence

CEN interested in milk industry in Latin America.

Idaho. State of. Dept. of Public Welfare. Re: state law
pertaining to pasteurization of milk.

Iowa. State of. Dept. of Agriculture. RE: Dairy law of state.

Ice Cream Trade Journal

Correspondence (1920-1928)

Request for copy of address to be delivered by CEN to Ohio
Association of Ice Cream Manufacturers.

Illinois.

Correspondence (1936)

Milk Pasteurization on laws in Illinois.

Drawer 9-3

Illinois. University of. College of Agriculture.

Correspondence (1919-1926)

Committee on Control of Milk and Dairy Products.

Illinois. University of. College of Medicine.

Correspondence (1927)

Indiana. State Board of Health

Correspondence (1920-1936)

CEN discussed work of the National Commission on Milk Standards.

Indiana, State Board of Health

Correspondence (1917-1919)

CEN, National Commission of Milk Standards.

Indiana. State Board of Health

Correspondence (1913-1917)

CEN, National Commission on Milk Standards.

Indianapolis, Indiana

Correspondence (1936)

Survey of Milk Laws in Indianapolis.

Instant Drying Corporation

Correspondence (1943-1954)

Drying of skim milk.

Drawer 9-4

Instant Drying Corporation

Contract (1943-1954)

North Milk Industries Inc.

Instant Drying Corporation

Proposed contract, notes by William Marston Seabury. (1943)

Includes estimates on monthly budget of North Milk Industries, Inc.

International Association of Dairy and Milk Inspectors.

Correspondence (1916-1919)

CEN makes arrangements for Conference of International A
Association of Dairy and Milk Inspectors.

International Association of Milk Dealers.

Membership lists and correspondence (1919-1934)

International Basic Economy Corporation

Correspondence (1947)

CEN, letters to Nelson Rockefeller about possible milk process
for South America and Far East.

International Health Board.

Correspondence (1922)

I.H.B. invited to participate in Public Health Exposition:
CEN interested in development of milk pasteurization plants
in Brazil.

Drawer 9-5

International Milk Dealers Association

Correspondence (1911-1918)

CEN meets opposition to his questionnaire on the milk business.

International Milk Dealers Association

Miscellaneous Data (1912-1917)

Interstate Milk Producer's Cooperative

Correspondence (1938-1952)

CEN development of Grade A Milk Standards.

Interstate Milk Producer's Association

Correspondence (1936-1937)

CEN, letters concern Copeland Senate Bill 2359.

Interstate Milk Producer's Association

Correspondence (1919-1921)

Cites booklet, "Safeguarding Nature's Most Valuable Food-Milk", by CEN.

Iowa State College

Correspondence (1922-1952)

Irradiated Milk

Letters from Medical Doctors. (1934)

CEN form letter sent to hospitals in NYC concerning use of irradiated milk; also list of hospitals.

Drawer 9-6

J Miscellaneous correspondence

Jadwin, Stanley P. Extraction of caffeine from the coffee bean.

Janssen Dairy Corporation. Re: incorporation of Grade A Milk Association. Invitation to send representatives to attend meeting.

Jersey Farm Dairy Company. Raw milk.

Service Bureau. Outline of activities (1931)

Sharpe and Dohme. Mulford Biological Laboratories.

Correspondence (1936)

Acidophilus products and acidophilus therapy.

Sharpless, P.E. Company.

Concerns emulsor and milk oil.

Drawer 13-12

Shifffield Producers Cooperative Association.

Correspondence (1937-1940)

Concerns CEN's motion pictures.

Sherman, H.C.

Correspondence (1912-1949)

Shrader, J.H.

Correspondence (1933-1939)

Or

Smith, Alfred E., Governor of New York State.

Correspondence (1919)

Concerns milk and also high cost of living.

Smith Corporation.

Correspondence (1950-1953)

Some material concerns North Milk Industries, Inc.

Smith Theobald, (Dr.).

Correspondence (1922-1932)

Rockefeller Institute. Hemolytic streptococcus.

Society for the Prevention of Harbor Pollution.

Correspondence (1913-1914)

Soviet Government Purchasing Commission.

Correspondence (1943-1944)

CEN requests meeting.

Drawer 13-13

Sparks, John C.

Correspondence (1916)

Consulting and analytical chemist. Pollution.

Spray Drying Corporation.

Correspondence (1919)

Springfield, Mass. Dept. of Public Health.

Correspondence (1925-1936)

Pasteurization laws.

Squibb, E.R. and Sons.

Correspondence (1934-1951)

Milk Sugar

Standard Brands, Inc.

Correspondence (1932-1933)

CEN requests information on Vitamin D Milk.

Stevens, John F.

Correspondence (1946-1954)

Includes memo entitled, "North Milk, Inc.", Nov. 1, 1949.

Straus, Jesse Isidor

Tests, CEN on Mt. Kisco Dairy (1920-1927)

Straus, Nathan.

Correspondence (1913-1925)

Purity tests.

Drawer 13-14

Straus, Nathan, Jr.

Correspondence (1923-1925)

Purity tests.

Drawer 14-1

Supplee-Alderney Dairy.

Correspondence (1914-1917)

Material includes: question of Clean Milk; National Commission on Milk Standards and other milk associations.

Supplee-Hills-Jones Milk Company.

Correspondence (1938-1939)

Grade A Milk.

Supplee-Hills-Jones Milk Company.

Correspondence (1927-1937)

Grade A Milk.

Supplee-Hills-Jones Milk Company.

Correspondence (1918-1926)

Swift and Company.

Correspondence (1930-1947)

CEN Pilot Plants. One for production of dehydrated milk fat and one for production of dehydrated skim milk; also Swift and Company interested in CEN Patents.

Sysacuse, New York. Department of Health.

Correspondence (1927)

Milk-born epidemics. Electro-Pure Process.

Drawer 14-2

T Miscellaneous correspondence

Tacoma, Washington. Dept. of Health & Sanitation. Pasteurization of milk and varying temperatures concerned with bt.

Taylor, W.A. & Company. Water analyzer equipment; temperature recording instruments.

Telling-Belle Vernon Company. Employment of Arthur D. Gemmill.

Tennessee, State of. Department of Agriculture. Laws regarding pasteurization.

Texas. State Board of Health. Laws regarding pasteurization.

Thatcher Manufacturing Company. Automatic casing of bottles at discharge end of the filler.

Thomson, McLeod. Letter of thanks for copy of Roget's, "Thesaurus".

Time Magazine. Letter thanking CEN for cooperation on report on concentrated milk.

Time Magazine. Dr. Arthur Vogelsong's experiments with Vitamin E Treatment for heart disease.

Time Magazine. Invitation to attend a dehydration demonstration.

Article on CEN which appeared in the magazine; "Dehydration Process for Milk".

Time Magazine. Report on milking machines. (Not published.)

Towbridge, E.H. (Dr.). Milk situation in Worcester, Mass.

Turner & Wescott, Inc. CEN addresses class on "Premium Products".

Tart Brothers, Incorporated.

Correspondence (1923-1927)

Thomas, Arthur W.

Correspondence (1915-1928)

CEN requests various tests.

Thompson's Dairy, Washington, D.C.

Correspondence (1936-1948)

Use of Steam Sterilization on Dairy Farms; history of pasteurization.

Drawer 14-3

Toledo, Ohio. Division of Health.

Correspondence (1936)

History of pasteurization.

Toronto, Canada. City Clerk's Office.

Correspondence (1920)

CEN proposes Milk Survey.

Toronto, Canada. Public Health Department.

Correspondence (1917-1931)

Commission on Milk Standards.

Toronto, Canada. Public Health Department.

Correspondence (1912-1916)

Commission on Milk Standards.

Trenton, New Jersey. Bureau of Health.

Correspondence (1927-1933)

Pasteurization laws.

Turman, Harry S.

Correspondence (1945-1952)

Picture of Truman; CEN asks Truman to reexamine the existing purity of Milk Supplies.

Drawer 14-4

Tupman Thurlow Company, Incorporated.

Correspondence (1943-1957)

Foreign markets.

U Miscellaneous correspondence

USSR. Chemeko-technologitscheski Institute; Leningrad.
Letter in answer to query on pasteurization of milk.
Urner-Barry Company. Method for making plate counts.
Utah. State Board of Agriculture. Laws pertaining to pasteurization of milk.

Union Milk Company, Ltd., Calgary, Canada.

Correspondence (1919-1921)

Involves North Public Health Bureau.

United Dairies, Ltd.

Correspondence (1919-1936)

United Nations.

Correspondence (1948-1951)

Need for milk on Post-War World.

United States.

Miscellaneous inquiries, No. I.

Bretzke, F.G. (Pres.) Mayflower Dairy Company. CEN's dehydrated products.
Budlong, W.M. Letter inquiring into CEN's dehydrated products.
Cannon, Margaret. Research and Inquiry Service, Dairy Industries Supply Association, Inc. Letters concern CEN's process of reconstituting dehydrated whole milk.

Deane, H.M. (Captain, V.C.) Office of The Post Veterinarian.
Letters to CEN concerning types of fats and skim milk
for use in reconstituting fluid milk.

Krauss, W.E. (Chief) Ohio Agricultural Experiment Station.
Letters concern CEN's process for reconstituting milk.

Latin-American Inquiries List.
List of Important Inquiries Regarding Milk Oil and Reconstituted
Milk.

Lockett Company. Interested in issue of "Time" which discussed
CEN's dehydrated milk process.

Messiter, E.G. Market Survey and Analysis; Product Research and
Development. Offers to be CEN's Washington representative.

Monahan, H.V., New York Furniture Exchange. Interested in
sending some of CEN's milk powder to his son, an officer
with the Air Corps in China.

Morgan, Carl. Eastern Sales Mgr. Merlie Papaya Products, Inc.
Letters concern some new developments in Papaya.

Morchant, M. Howard. CEN interested in supplying reconstituted
milk to Army and Navy.

McLean, R.P. Claresholm, Alberta. Interested in article in
"Time" on CEN's process for dehydrated milk.

Olcott, Gaye. Bolten's Clover Farm. Interested in article in
"Time", (Nov. 16, 1942) regarding CEN's process for dehy-
drated milk.

Piggott, George, Assistant Control Manager. Merrill and Ander-
son Company. (Advertising) Request information from CEN
on the new process of dehydration and reconstitution of
whole milk.

Proctor, B.E. (Prof.) Department of Biology and Biological
Engineering, Massachusetts Institute of Technology.
Concerns article in "Time" on CEN's process of dehydra-
ted milk.

Sears, Paul H. Woodbury, Conn. Concerns article in recent
October issue of Herald Tribune on CEN's process of
dehydration of whole milk.

Seymour, L.D. (Vice-Pres.) Dodge & Seymour, Ltd.: An Export
Sales Organization interested in article in "Time" con-
cerning CEN's process for reconstituted milk.

Scharback, H. New York City. Letters concern reconstituted milk.

Stanton, Richard. Sherman K. Ellis & Company interested in
article in "Time" on CEN's process for reconstituted milk.

Rhodes, W. K., Commander, U.S. Navy. Interest in article in
"Time" on CEN's process for reconstituted milk.

Drawer 14-6

Tragle, Henry, Lieut.I., 36th Armed Regt., Ft. Knox, Kentucky.
Interest in article in "Time" on CEN's process for re-
constituted milk.

United States Department of Agriculture. Agricultural Marketing
Administration: Specification for Canned Foods Cases.

United States Department of Agriculture. Agricultural Marketing
Administration: Specification for Canned Foods Cases.

Williamson, S.W. Media Concrete Products Company. Interested
in article in "Time" on CEN's process for reconstituted
milk.

United States.

Miscellaneous inquiries, No. II.

Altman, Alfred. (Pres.) National Dairymen's Association. Re-
quest for fresh pure butterfat in dry form.

Balch, G.G. Balch Flavor Company. Interest in CEN's milk
products for possible export to South America.

Beck, V.S. Beck Engineering Combustion Company. Interested
in CEN's reconstituted milk process.

Blackwell, H.M. Purchasing Manager, Pan American Airways
System. Interest in CEN's dehydrated milk products.

Chase, G.S. Chase Brothers Dairy. Interested in purchasing
machinery from North Milk Products, Inc.; use in the
process of drying whole milk.

Blumenthal Brothers; Blumenthol Brothers. Requests quotation on
milk oil from North Milk Products Incorporated.

Branagen, Frank A. Interest in article in "Time" on CEN's
process of dehydrated milk.

Brooks, Herbert, Yale University Press. Interest in CEN's
process of reconstituted milk.

Collins, S.A. Portville Milk Company, Inc. Interest in CEN's
milk oil and butter oil products.

Chapin, Purchasing Agent, Manufacturers Representative. Interest
in CEN's reconstituted milk process.

Cantor, Joseph. Canto Neighborhood Theaters. Interest in invest-
ing and promoting CEN's organization.

Diebold, A.H. Executive Committee of American Home Products
Corporation. Not interested in investing in CEN's organ-
ization at this time.

Egee, George T. George Thiesner Egee Associates. Need for reconstituted milk in India.

Eaton, Jr. Major H.D., The Engineer School, Fort Belvoir. Concerns CEN's dehydrated milk and its possible use in foreign countries.

Field, Allan J. Cliffride, New Jersey. Dried pasteurized cream.

Graham, S. Illinois Baking Corporation. Dehydration of ice cream mix.

Hoiner, Charles E. New York, N.Y. Dehydration of milk.

Jones, Paul D. (Pres.) International Dairy Products Corp. Interest in CEN's milk oil for Latin America.

Knips, Emil J. Flushing, New York. Nutritional value of reconstituted milk.

Kegan, S. Dehydrated milk.

Laughlin, John L. Mengar Dairy Co; Refers to August issue, 1949, P Popular Science "Mechanical Cow Server Global Milk Route".

Logerman, C.W. C.W. Logerman Company. Refers to plans for using mechanical cow homogenizer.

Lund, A.A. Associates. Refers to various companies which are interested in CEN's process of reconstituted milk.

Mc Lean, P.K. McLean and Barnes Hardware Company. Interested in CEN's dehydrated milk process.

Mendel, Lafayette B. Professor of Physiological Chemistry, Yale University. Interest in CEN's process for removal of fat from milk.

Mones, Lawrence S., Assistant Chief, Division of Libraries and Institutes. Interest in CEN's article in Time Magazine for November 16, 1942.

Parish, E.W., Jr. Lt. Commander, U.S. Navy. Interest in CEN's article in Time Magazine for November 16, 1942.

Perkins, B. G. Doane Agricultural Service, Inc. Interest in reconstituted milk.

Phillips, Steven. John G. Marshall, Inc. Interest in dehydrated milk process.

Rensloe, Helmuth R. Marx and Co. Interest in CEN's inventions.

Risnac Company. Invitation to CEN's pilot plant.

Rogers, George, Saybrook, Conn. Interest in CEN's dehydrated milk.

Schultz, Robert V., Lieut. Commander, Office of Post Sanitation Officer, Regimental Infirmary #4, Camp Le Jeune. Interest CEN's demonstration of reconstituted milk.

Sell, Henry B. Planned Foods, Inc. Interest in promoting CEN's dehydrated milk and other products.

Drawer 14-8

Snyder, H. Blake. Caldwell, N.J. Concerns cost of installing a plant to dehydrate skim milk.
Topolean, S. Seville Hotel, New York, N.Y. Concerns literature on CEN's process of dehydrated milk fat.
Wagg, Kenneth A., Chairman, Horlicks Corporation. Interest in CEN's process of dehydrated milk and milk products.
Waterhouse, Thomas P. Bellevue Dairy. Refers to CEN article in Milk Dealer, October, 1942.
Werner, Paul L., Director, Waco McLennan County Health Unit. Interest in differential tests between reconstituted milk and pasteurized milk.
Wilson, Frederic H., New York, N.Y. Interest in CEN's reconstituted milk.
White, E.L. White Ice Cream and Milk Company. Concerns plans for CEN's milk demonstration for Commander Schultz.

United States. Board of Economic Warfare.

Correspondence (1942)

Reconstituted milk.

United States Congress.

Correspondence (1941-1950)

Letters from Senator Herbert Lehman; Congressman Reed Murry and Congressman Martin Dies.

United States Coordinator of Inter-American Affairs.

Correspondence (1942-1944)

Letters from Nelson Rockefeller, Coordinator concerning varieties for machinery and supplies for use in dehydrated milk products.

United States. Department of Agriculture.

Correspondence (1927-1954)

CEN requests information, and also supplies film for review.

Drawer 14-9

United States. Department of Agriculture. Agricultural Adjustment Administration.

Correspondence (1930-1934)

Letter to Mrs. Eleanor Roosevelt; also referral letter by Mrs. Roosevelt to Department of Agriculture.

United States. Department of Agriculture.

Agricultural Marketing Administration. Correspondence (1942-1944)

Concerns CEN's efforts to gain support and promoters for his dehydrated milk process.

United States. Department of Agriculture. Bureau of Animal Industry.

Correspondence (1915-1943)

United States. Department of Agriculture. Bureau of Chemistry.

Correspondence (1913-1934)

Some letters concern activities of the National Commission on milk standards.

United States. Department of Agriculture. Bureau of Dairy Industry.

Correspondence (1918-1954)

Butteroil.

United States. Department of Agriculture. Commodity Credit Corporation.

Correspondence (1950-1954)

Butteroil.

Drawer 14-10

United States. Department of Agriculture. Director of Extension
Work. (M.L. Wilson)

Correspondence (1942)

Reconstituted milk.

United States. Department of Commerce. Bureau of Fisheries.

Correspondence (1935)

Cod liver oil and Cod Fisheries.

United States. Department of Commerce. Bureau of Standards.

Correspondence (1930-1931)

CEN requests "Circular of the Bureau of Standards, No. 8,
Testing of Thermometers and also Laws Concerning the Weights
and Measures of the United States!"

United States. Department of Commerce. Bureau of the Census.

Correspondence (1915-1929)

CEN requests various census information.

United States. Department of Commerce. Patent Office.

Correspondence (1921-1953)

CEN requests various patent information.

United States. Federal Security Agency. Public Health Service.

Correspondence (1940-1952)

CEN requests information on Milk Ordinance, Bacucella Abortus.

Drawer 14-11

United States. Federal Trade Commission.

Correspondence (1944)

United States. Food Administration. New York Federal Food Board.

Correspondence (1917-1918)

United States. Lend-Lease Administrator.

Correspondence (1942-1952)

Letters to Harry Hopkins concerning reconstituted milk.

United States. National Research Council.

Correspondence (1941-1953)

CEN's reconstituted milk.

United States. Office of Price Administration.

Correspondence (1942)

United States. Treasury Department. (Secy. Henry Morgenthau, Jr.)

Correspondence (1936)

Weakning of Grade A Milk restrictions.

United States. Treasury Department. Public Health Service.

Correspondence (1922-1926) Bulletin No. 147

Includes Test for Tubercle Bacilli; CEN's criticism of Bulletin No. 147, and reference to Eadicott report.

Drawer 14-12

United States. Treasury Department Public Health Service. (Leslie C. Frank)

Correspondence (1926-1934)

Concerns Revised U.S. Milk Ordinance, 1933.

United States. Treasury Department. Public Health Service.

Correspondence (1913-1936)

United States. Treasury Department. Public Health Service.

Outline of brief, CEN. (1936)

United States. Treasury Department. Public Health Service. (Dr. E.J. Streglitz)

Correspondence (1940-1943)

Committee on Longevity.

United States. Treasury Department. Public Health Service. (Thomas Poiran, Jr.)

Correspondence (1936-1950)

CEN refers to weakness of U.S. Public Health Standard milk Ordinance; reconstituted milk and Commission on Milk Standards.

United States. War Department

Correspondence (1942-1943)

Reconstituted Milk.

Drawer 14-13

United States. War Department. Quartermaster Corps. Bids & Specifications. Alaska.

(1949-1953)

United States. War Department. Quartermaster Corps.

Correspondence (1942-1950)

Dehydrated milk.

United States. War Department. Quartermaster Corps. Specifications, Milk Oil; Dry Skim Milk.

(1945-1950)

United States. War Department. Quartermaster Corps. (Iwing C. Reynolds)

Correspondence (1947-1950)

Reconstituted milk.

United States. War Relocation Authority.

Correspondence (1942-1944)

CEN appointed consultant.

Drawer 15,1

V Miscellaneous correspondence

VCA Laboratories. GEN requests material on treatment of heat heapt disease with Vitamin E.
Verley Products Corporation. GEN requests material on cottage cheese system.
Vermont. State of. Milk laws.
Vermont. University, College of Agriculture. Proposed Eastern States Dairy Association.
Vio Bin Corporation. Antioxidant.
Virginia, Commonwealth of. State Milk Laws.
Virginia Dairy Company. Request information from GEN on handling milk.
Vitex Laboratories. GEN request copy of report entitled, "Fluid Milk Consumption in various American Cities".

Van Ingen, Phillip.

Correspondence (1934-1942)

Concerns Grade A Milk and inquiry into the location of the records of the New York Milk Committee.

Van Nostrand and Company.

Correspondence (1929-1935)

Van Slyke, L.L.

Correspondence (1912-1920)

Commission on Milk Standards.

Vermont Agricultural Experiment Station.

Correspondence (1923-1944)

GEN requests various Bulletins.

Drawer 15-2

Vermont Dairymen's Association.

Annual meetings and addresses by CEN, (1916-1918)

Vermont Dairymen's Association.

Correspondence (1915-1928)

Concerns CEN addresses.

Vermont. Department of Agriculture.

Correspondence (1914-1944)

Vitamins, Incorporated

Correspondence (1936-1940)

Vitamin D.

Vreeland, T. Reed.

Correspondence (1947-1952)

Continuous churn.

W Miscellaneous correspondence

Wadsworth, Augustine W. (Dr.). Tubercle bacilli.

Wanger, Sidney and Sons. History of pasteurization in Chicago.

Wamer, William R. and Co., Inc. Dr. Barry Success Course,
Health and Appearance.

Washington. State of. State milk laws.

Pasteurization:

I. Introduction

Pasteurization I.
Pasteurization I.A.
Pasteurization I.B.

Article GEN (1908)
Pasteur - early data
Soxhleit, Caille, Jacobi, Freeman,
Straus

II. A.B.- Diseases

Pasteurization II.A. Statistics of epidemics
Pasteurization II.A. Bacterial studies of milk
Pasteurization II.B.1 Typhoid
Pasteurization II.B.2 Tuberculosis
Pasteurization II.B.3 Septic, sore throat - streps
Pasteurization II.B.4 Diphtheria
Pasteurization II.B.5 Poliomyelitis, etc.
Pasteurization II.B.6 Undulant fever
Pasteurization II.B.7 Diarrhea, etc.

II. C.- Thermal death point

Pasteurization II.C. Thermal death point and curves
drawn in 1912
Pasteurization II.C.1 Thermal death point of tubercle
bacilli
Pasteurization II.C.1 Thermal death point of typhoid
bacillus

Pasteurization II.C.2	Cream line
Pasteurization II.C.3	Taste
Pasteurization II.C.4	Bacteria surviving pasteurizationP
Pasteurization II.C.5	Thermal death point, Chemical changes and fertilization

III. Requirements of methods:

Pasteurization III.	Requirement of method
Pasteurization III.	Methods - Early history
Pasteurization III.	Keeping qualities - Preservatives

III.A.-Flash:

Pasteurization III.A.	Flash-definition
Pasteurization III.A.1	Inventions by Fjoid
Pasteurization III.A.2	Regenerators by Alborn and Hildesheim
Pasteurization III.A.3	Adoption of Flash in U.S. (Reig-Miller)
Pasteurization III.A.4	Legislation against Flash abandonment
Pasteurization III.A.5	Flash vs. holding
Pasteurization III.A.5	New interest in Flash-Equipment

III.B.- 1-2 holder:

Pasteurization III.B.	Definition of holding method
Pasteurization III.B.1	Holder-Monrad
Pasteurization III.B.2a	((1), (2), (3)) Holder-North-Lederle
Pasteurization III.B.2b	(4) Digestibility
Pasteurization III.B.2c	((1), (2), (3)) Holder suggested - North
Pasteurization III.B.2c	((1), (2),) - Sheffield Farms - First holder

III. B.- 3-4 holder:

Pasteurization III.B.3	Holder outlaws flash
Pasteurization III.B.3	Pasteurized milk
Pasteurization III.B.4	The holding method in modern practice
Pasteurization III.B.4a	((1), (2)) Modern holders
Pasteurization III.B.4b	((1), (2)) Modern methods of holding
Pasteurization III.B.4c	Cooling
Pasteurization III. B.4d	Thermometers

III. C.- Machines:

Pasteurization III. C.	Comparison of machine types (general)
Pasteurization III.C.1	(Methods) Efficiency of bacterial destruction
Pasteurization III.C.2	(Methods) Cream line-taste
Pasteurization III.C.3	(Methods) Cost

III.D- Trend:

Pasteurization III.D.	Future trend of pasteurization methods
Pasteurization III.D.	((1), (2), (3)) In the bottle - home flash irradiation
Pasteurization III.D.4	New time and temperature charts

IV.A. Nutrition:

Pasteurization IV.	The fight for pasteurization
Pasteurization IV.A.	Nutritious value of pasteurized milk
Pasteurization IV.A.1	Chemical change due to pasteurization
Pasteurization IV.A.2	(Nutrition) Animal experimentation
Pasteurization IV.A.3	Human statistics - nutrition
Pasteurization IV.A.4	Boiled milk

IV.B. Safety:

Pasteurization IV.B.	Safety of "perfectly pasteurized milk"
Pasteurization IV.B.	Epidemics laid to certified milk
Pasteurization IV.B.2a	Baby Health Stations
Pasteurization IV.B.2b	New York Milk Committee
Pasteurization IV.B.2b	Milk supply in large cities

Drawer 36- 8

IV.C. Legislation:

Pasteurization IV.C.1	Recommendation of pasteurization
Pasteurization IV.C.2a	Milk regulations - statistics
Pasteurization IV.C.2a	Inadequate legislation
Pasteurization IV.C.2b	Advantages of legislation
Pasteurization IV.C.2b	((1), (2)) Pattern for future laws
